

MINING METEORITE

WITH US

WE OFFER YOU

without leaving your home, to become part of the professional team of meteorite hunters!

OUR GOAL IS

is one of the rarest and most expensive meteorites on the market — Seimchan! Nearby price comparison table.

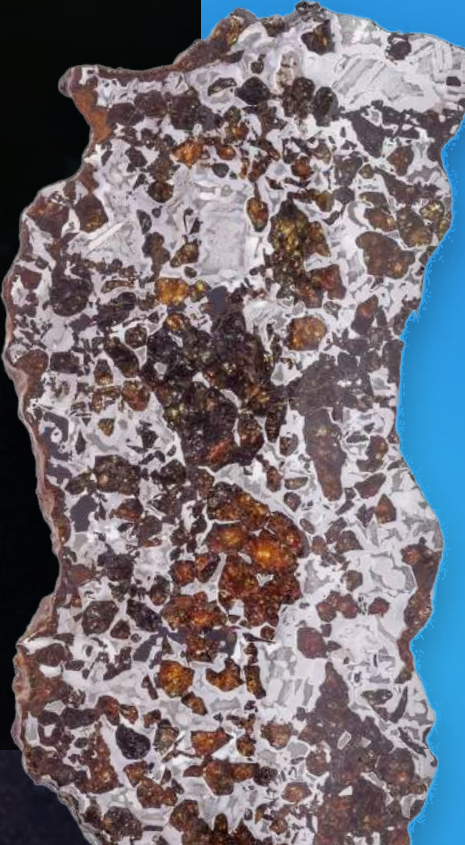

CHRISTIE'S AVERAGE PRICE:
\$29,9 / 1 GR.

SOOTHEBY'S AVERAGE PRICE:
\$21,7 / 1 GR.

EBAY AVERAGE PRICE:
\$13,0 / 1 GR.

AVERAGE MARKET PRICE:
\$21,5 / 1 GR.

PROJECT PRICE:
\$10,0 / 1 GR.

AGE
4 – 4,5 billion years

CHEMICAL COMPOSITION
iron, nickel, iridium, gallium, germanium

TOTAL WEIGHT
about 60 tons

YEAR OF DISCOVERY
1967

OUR TEAM

has combined the competencies of specialists in the field of blockchain, behind which there are already more than one successfully launched project, and a search team consisting of professional geologists, dozens of field expeditions and more than one ton of mined meteorite (you can see a photo).

STRATEGY

We make 5 expeditions to diversify risks and guarantee 100% results! Modern equipment and our all-terrain vehicle give us the opportunity to search in winter, no one has done this yet, but this is the only way, at temperatures down to -50°C, we can search in swamps that are impenetrable in summer, which are in the fall zone! Nobody has done this yet!

TOKENOMICS

ACCOUNT OWNER	PRICE	SHARE (% OF TOTAL)	AMOUNT IN TOKENS	VALUATION (\$)
Seed round	1.2	15%	150,000	\$180,000
Private	1.4	15%	150,000	\$210,000
Public safe	1.8	30%	300,000	\$540,000

Marketing	—	10%	100,000	—
Team	—	15%	150,000	—
		TOTAL	MAX SUPPLY	TOTAL RAISE
		100%	1,000,000	\$930,000

JOIN US

Each token holder is a full-fledged member of our expedition and shares the success with us as a percentage! The token is backed by a real meteorite iron and once a quarter we accept withdrawal requests! An expedition for a meteorite is always an exciting adventure, but in the modern world, very few people are capable of such feats. We go to give everyone the opportunity to experience this feeling and share with us the joy of victories! Let's go down in history together and accomplish this feat.

MINING METEORITE WITH US!
